

The 90th Birthday of MUDr. Vladimír Vonka, DSc

On July 31st, MUDr. Vladimír Vonka, DSc celebrated his 90th birthday and 60 years of recognized and highly successful research in virology. Dr. Vonka belongs to the top scientists and experts not only in the Czech Republic, but also in Europe and North America. One of his most important successes is the proof that herpes virus type 2 is not the causative agent of cervical cancer. Dr. Vonka continues his research to this day while in so called “retirement”.
